Physician-Scientist
Section of Addiction Medicine, Division of General Internal Medicine & Geriatrics
Department of Medicine
Oregon Health & Science University

The Section of Addiction Medicine in the Division of General Internal Medicine & Geriatrics, Department of Medicine at Oregon Health & Science University anticipates recruiting an outstanding physician-scientist at the Assistant Professor level. The successful candidate will be a clinician investigator who has completed a 2-year research fellowship or equivalent research methods training and whose research focuses on substance use disorder-related clinical trials, policy, or health services research. The successful candidate will have the opportunity to work collaboratively with other investigators at OHSU to develop a productive career as an independent clinician scientist in the field of addition medicine.

The Division of General Internal Medicine & Geriatrics houses sections of Addiction Medicine, Health Promotion and Sports Medicine, and Geriatrics and offers fellowships in Addiction Medicine and General Internal Medicine. The Division operates a number of primary care clinics, as well as outpatient and inpatient addiction medicine consult services, innovative social medicine partnerships serving underserved populations with teaching opportunities to learners at all levels. Many research institutes and core research facilities are available for collaboration and services, including the Oregon Clinical & Translational Research Institute (our CTSA), the Center for Health Systems Effectiveness, the Center for Evidence-Based Policy, The Agency for Healthcare Research and Quality Evidence-Based Practice Center, and the VA Evidence Synthesis Program, among others. OHSU is also home to the Western States Node of the National Institute on Drug Abuse Clinical Trials Network, providing a robust platform for addiction-related clinical trials research.

The successful candidate will have 80% protected time for research, with approximately 20% time devoted to clinical care, and will enjoy substantial institutional support to build her or his research program, with the expectation of obtaining extramural funding to cover their research time within 2-3 years. The incumbent will participate in all activities of the division, the department, and the institution, and teaching of medical students, residents, and fellows as appropriate.

Candidates must possess an MD degree or equivalent and active board certification in a relevant specialty, and be eligible to obtain clinical privileges at OHSU and an unrestricted license to practice in Oregon. Preference will be given to candidates who are board-eligible or board-certified in addiction medicine. Interested candidates should submit a cover letter describing interest and qualifications and a curriculum vitae by email to Dale Stark (starkd@ohsu.edu)
OHSU provides equal opportunities to all individuals without regard to race, religion, national origin, disability, age, marital status, sex, sexual orientation, gender identity or expression, military service, or any other status protected by law. This policy applies to all employment, education and patient care related activities. Applicants with disabilities can request reasonable accommodation by contacting the Affirmative Action and Equal Opportunity department at 503-494-5148.
